Work with us to avoid winter disconnection. We can help.

We know that sometimes money can get a little tight, particularly during the winter. So we want you to know that if you find that you're unable to pay your natural gas bill this winter, there are steps you can take to avoid losing your service.

Step 1. Give us a call. We may be able to help if we know about your situation. Please call us right away at **877.226.7427** to tell us that you cannot pay your bill.

Step 2. We'll set up a payment program for you. We have several payment options that allow you to pay your winter natural gas bills in affordable monthly payments. In most cases, you must pay all that you owe us by the following November 1, but a monthly payment arrangement can help you avoid being disconnected.

Step 3. You may qualify for a financial assistance program. Depending on your financial situation, you may qualify for financial assistance from the state, a local government agency, or private sources to help you pay your utility bills. To find out more about these programs, we recommend that you call 211. They may be able to point you in the right direction for financial help, and they may also be able to connect you to no-cost energy audits, weatherization programs, or other efficiency measures that can reduce your overall natural gas usage and save you money.

Remember that the first step is to call us to let us know you can't pay your bill. Failure to contact us may result in disconnection with the approval of the Consumer Assistance Division of the Maine Public Utilities Commission.

If you have questions, please call us at **877.226.7427**.

If you are not satisfied, you can call the Consumer Assistance Division of the Maine Public Utilities Commission at 800.452.4699

You can find more information on help with paying your utility bills, by contacting these groups in your county.

For your safety, follow the Nose

Natural gas is a safe, reliable, clean-burning fuel when used properly. With more than 211 miles of gas main in our system, safety is our first priority.

USE YOUR NOSE

Natural gas has no odor of its own. For your safety, a distinctive odor, similar to rotten eggs, is added to it.

SMELL: We add a chemical, Mercaptan, to give natural gas that distinctive “rotten eggs” odor. If you smell it, leave the area, get outside and call us at **877.532.5636 or 911** from your mobile or a neighbor’s phone.

NO SMELL: Poisonous carbon monoxide gas is a byproduct of burning fuels such as natural gas and heating oil. You can’t see or smell it, so you should **have a carbon monoxide detector on every level of your home** and outside of sleeping areas.

We can help you manage your energy bill

With our free and convenient services and tools, managing your energy bill is easy as 1, 2, 3!

1. **Powerful Savings.** Make your home energy-smart. Start with an energy assessment and other services including air sealing, insulation and rebate programs. Visit efficiencymaine.com to get started.
2. **Help With Your Bill.** You’ll find a complete list of our assistance programs when you visit mainenaturalgas.com/HelpWithBill. Also, refer to the other side of this insert for more information on how we can help.
3. **No Surprises.** Our **Budget Payment Plan** option is available to eligible customers to help avoid and budget against high energy bills in the winter months by spreading those costs throughout the year. To enroll, please visit mainenaturalgas.com, select **Account** and click on **Budget Payment** under **Billing Options**.
